

Axiom Forensics

Credentials & Engagement Overview

FIRM OVERVIEW

Axiom Forensics is a forensic AI compliance audit firm. We audit AI systems used by insurance carriers, law firms, and fintech firms — producing Article 14 human oversight documentation, Article 50 transparency records, and Annex IV technical documentation that satisfies EU AI Act enforcement requirements. Delivered in 48 hours.

We produce forensic evidence, not governance frameworks. The distinction matters because governance frameworks describe what should happen. Forensic evidence demonstrates what actually happened. Regulators ask for the second, not the first.

FORENSIC METHODOLOGY · AXIOM OVERSIGHT METRIC (AOM)

Three Forensic Markers. Run Within 60 Minutes of Log Receipt.

FM1 Intervention Delta

JOIN decision_log LEFT JOIN review_log ON decision_id. NULL = critical finding.

FM2 Actor Attribution

GROUP BY reviewer_id. Shared account = forensically anonymous oversight.

FM3 Decision Reversibility

Outcome distribution query. Zero override rate = passive monitoring = Article 14 failure.
AOM Bands: 0-39 Critical Liability · 40-59 Material Risk · 60-79 Conditional · 80-100 Compliant

REFERENCE AUDIT · MERIDIAN CREDIT SOLUTIONS LTD · AXM-2026-IRL-FT-001

AOM SCORE	ARTICLE 99	FINDINGS	OVERRIDE
41/100 Material Risk	EUR 15M Exposure	3 Critical F-001/F-002/F-003	0% 378,000 decisions
